November 19, 2019

## 1 Project idea

The main idea behind the project is a video-clip sharing service based on existing video platforms. Our website will work a little bit like imgur, but for videos: you will be able to share moments of a video (just by providing timestamps) both anonymously or with an imgur-like account. You will be able to vote and comment on existing post, or to join multiple clips in an album.

## 2 Repository
